(602) 252-4134 • [www.tomsautobodyphoenix.com](http://www.tomsautobodyphoenix.com)

## KEEPING THE LOVE FOR YOUR CAR ALIVE

For some, you'd put it in the top five loves of your life. No, not your spouse, kids or pets. Your car!

Like you, there comes a time when your car needs a little extra work to keep that youthful look and feel behind the wheel. If not addressed, you develop a wandering eye for a new love. You can keep the love for your car alive a little longer and also save some money if you address three key areas.

### PAINT CORRECTION AND DENT REPAIR

If your vehicle looks like it has been scraped up in a few accidents, or has suffered at the hands of everyday wear and tear, paint correction and dent repair is a great solution. Body shop estimators can help you with a paint correction and dent repair estimate.

### AUTO DETAIL

Detailing the inside and outside of your vehicle can make it look shiny and new again. You can find a variety of price points for exterior and interior detailing. The restoration not only helps bring back the look of a newer car, but also extends the life and maintains or improves the value.

### MECHANICAL RESTORATION

An older car shouldn't mean compromised handling or safety. A good look at the engine, belts and brakes can help determine how to improve the drive. You'll also be able to determine if a complete engine rebuild is a good way to go.

## SERVICES OFFERED

- Collision & Auto Body Repair
- Structural Repair
- Unibody Repair
- Electrical Repair

## WHO IS GARAGEFLY?

We are your online automotive locator connection, helping you find a premier body or repair shop near you. We're local and so are our shops. Enter your city or zip code on your computer or phone to find the shops nearby. Then, read our **validated reviews** to make an educated decision that gives you confidence in your choice. GarageFly helps you make a sound decision that works best for you. To find out about our latest promotions, please visit us online at [www.GarageFly.com](http://www.GarageFly.com)!

## SPRING CLEANING

**ADDITIVE:** Talk with your auto expert to determine one best for your vehicle. Add it to your gas tank every time you change your oil.

**WIPERS:** It's a great time to install a fresh pair if it's been a while since you last checked them.

**FILTER:** Check your car's cabin air filter and breathe easy with the Spring fresh air.

**FLUIDS:** Winter can take a toll on all of the fluids in your car. Be sure to check all of them and top them off as needed.

**ENGINE CLEANER:** Consider a bottle of fuel system cleaner to get the winter cobwebs out and keep your engine running well.

**DETAIL:** It's a small investment to extend the life of your car and its value. You can remove oxidation on the paint and improve the appearance inside, too.

## WHAT OTHERS SAY – A SAMPLE OF OUR ONLINE REVIEWS

- Marsha O.** 4/16/16 Status: Validated   
My only regret about Tom's Auto Body is that I didn't learn about them (or garagefly.com) sooner! Approximately 6 months ago I purchased a brand new 2015 Honda Odyssey. Two weeks after I purchased it, I accidentally put a large scratch on the driver's side passenger door when...

- Jaime F.** 3/31/16 Status: Validated   
We brought our Honda CR-V to Tom's Auto Body on a recommendation from a friend. At first time meeting with Ron, he made the entire process seamless and comfortable, while letting us know exactly what they would be doing and how long it would take. Our situation had to...

- Mike P.** 3/29/16 Status: Validated   
I went to take my vehicle in to this place. I walked in and met Art. I swear it felt like I knew these guys my whole life. I was greeted with great customer care. I was also guaranteed my vehicle would be done correctly as if it was never...

- Bruce L.** 3/4/16 Status: Validated   
My experience was perfect. I went in as a result of a slow-speed collision; I was sent there by the other driver's insurance. I am skeptical right from the bat. I drove down there and met Art. Immediately you could tell that he really does care about your...

- Sue H.** 2/26/16 Status: Validated   
These guys did a great job with some needed cosmetic body work and at a fair price. Recommend them highly.

## TIP OF THE MONTH

# TIRE TALK

- 1 PRESSURE**  
A tire can lose up to half of its inflation pressure and still not look flat.
- 2 ALIGNMENT**  
A bad jolt from a curb or pothole can throw alignment off and damage your tires.
- 3 ROTATION**  
Guideline for uniform tire wear is to rotate tires approximately every 5000 miles.
- 4 TREAD**  
Poor tread and wear can reduce the ability to grip the road in some adverse driving conditions.
